LICENSE NO. ND-169

National Research Corporation  
70 Memorial Drive  
Cambridge 42, Mass.

Attention: Mr. Robert A. Stauffer

Gentlemen:

Pursuant to the Atomic Energy Act of 1954 and Section 40.21 of the Code of Federal Regulations, Title 10--Atomic Energy, Chapter 1, Part 40 - Control of Source Material, the National Research Corporation (hereinafter referred to as the licensee) is hereby licensed to receive possession of and/or title to unlimited quantities of thorium-containing materials for conversion to thorium compounds, metals and alloys.

The licensee is further authorized to transfer thorium-containing materials, including thorium metal, compounds and alloys, to persons appropriately licensed by the Commission to receive such material.

Each export of refined source material, regardless of quantity, must be specifically licensed. Export license applications should be submitted in duplicate, and should be signed under oath or affirmation.

As a condition of issuance of this license, you are required to report your inventory, receipts and deliveries of source material on form AEC-5, in accordance with the instructions on the form, except that such reports shall be submitted quarterly. The first report will be due on March 15, 1956 and shall cover the period from date of issuance of this license through February 29, 1956.

This license is subject to all the provisions of the Atomic Energy Act of 1954 now or hereafter in effect and to all the valid rules and regulations of the U. S. Atomic Energy Commission. It is subject also to the proposed regulations published in the Federal Register on July 15, 1955 (10 CFR, Part 20) until such time as said proposed regulations or revisions thereof shall become effective regulations of the Commission.
