SUBJECT: COMPLIANCE INQUIRY MEMORANDUM
NATIONAL RESEARCH CORPORATION
70 MEMORIAL DRIVE
CAMBRIDGE, MASSACHUSETTS
LICENSE NO. 20-1465-5, -6
EXPIRED LICENSES

In a Memo Route Slip dated April 29, 1966 M. R. Miller, CO:HQ requested CO:I to conduct investigation or inquiry in accordance with the memorandum of R. G. Page, SLR dated April 25, 1966. The licensee had not replied to the 15-day letter sent in connection with License No. 20-1465-5 by SLR on March 15, 1966.

In a Memo Route Slip dated July 28, 1966 Gen W. Roy, CO:HQ transmitted a copy of a memorandum dated July 26, 1966 from R. G. Page, SLR requesting appropriate inquiry in connection with License No. 20-1465-6.

Licensee did not reply to our letter dated May 9, 1966. A subsequent letter dated August 11, 1966 was sent to the licensee. In reply thereto licensee has returned the completed form HQ-277 indicating that the byproduct material previously possessed under License No. 20-1465-5 was disposed of to Allied Crossroads Nuclear Corporation, Dorchester, Massachusetts on June 1, 1964. Allied Crossroads had AEC License No. 20-685-2.

The material held under License No. 20-1465-6 was returned to the U. S. Radium Corporation for disposal on October 30, 1964. U. S. Radium Corporation has License No. 37-30-2.

Inasmuch as licensee has properly disposed of the byproduct material possessed by it under the expired licenses, no further action will be taken herein and this matter is considered closed.
