Attention: Mr. James W. Hitch, Assistant Chief
Byproduct Licensing Branch
Isotopes Extension
Division of Civilian Application

Reference: IEB:HHY(6282); Application for Byproduct
Material License.

Gentlemen:

Enclosed herewith is the signed copy for the application for byproduct material license which you returned with your letter of July 12, 1957. In answer to your request for a breakdown for the number of sources we require, the following information has been provided.

Each source contains one curie of tritium. We would like to have fifteen plaques of the zirconium type and five plaques of the titanium type. This makes a total of twenty curies of tritium, which is the amount we indicated in Item #8 of the application, AEC Form-313.

We trust this information will be sufficient. Please do not hesitate to contact us if we can be of additional service to you.

Very truly yours,

John V. E. Hansen
Security Officer
