Gentlemen:

In the Matter of) Docket No. 50-390
Tennessee Valley Authority)

WATTS BAR NUCLEAR PLANT (WBN) - NRC REGULATORY ISSUE SUMMARY
(RIS) 2000-14 - PREPARATION AND SCHEDULING OF OPERATOR LICENSING
EXAMINATIONS

RIS 2000-14 was issued by NRC on September 6, 2000, and requested information regarding WBN's projected operator licensing examination schedules and the estimated number of applicants. In response to RIS 2000-14, TVA provided in a letter dated October 3, 2000, a projection of license examination dates through calendar year (CY) 2004. However, for CY 2002, the projected examination schedule of October 7, 2002 through October 21, 2002 needs to be revised. Please change the CY 2002 schedule to December 2, 2002 through December 13, 2002. This schedule change was coordinated with the Region II staff by James Baker, WBN Operations Training Manager, during a visit to the regional offices the week of March 5, 2001.

Should you require additional information regarding this matter, please contact me at (423) 365-1824.

Sincerely,

P. L. Pace
Manager, Licensing and Industry Affairs
