United States Nuclear Regulatory Commission
Washington, DC 20555

Subject: NRC Concerns About a Chilling Effect at the University of Missouri-Columbia Research Reactor (Office of Investigations Report No. 4-2000-029)

Dear Mr. Matthews:

In response to a telephone conversation with Mr. Al Adams of your staff, please find below the requested specific information regarding the FOIA request made on behalf of the University of Missouri-Columbia.

The most recent FOIA request [for appendices and exhibits] was filed by Ophelia Williams of J.R.H. Associates on 4/12/01. This should not be confused with the original FOIA request filed by the same person and to which the NRC has already responded with the assigned document number 0174.

Sincerely,

Edward A. Deutsch, Ph.D
Director
