Subject: Re: Fwd: FORTHCOMING MEETING WITH NRC, NEI AND PUBLIC STAKEHOLDERS

To all,

While I know there is interest in the meeting, Gary specifically wants this meeting to be at a high level so it doesn't interfere with the work we have to do. In fact he has asked for no input from the staff for the meeting, so that we are not diverted from the work we need to do. If you feel you can attend the meeting and still get you work done by the due dates, o'k.

I forgot to add that Gary, would like to know of any information or questions we would like to pursue with NEI or industry that we haven't already asked for. Let me know so that Gary can pursue at the meeting.

Thanks,

George

As I mentioned in our last Working Group Meeting, there will be an NRC/NEI/Public meeting on Wednesday, May 5th from 9-11am in O-8B4. Gary Holahan will be speaking at the meeting for the Technical Working Group, but at a very high level. He does not plan on going into any details, since we don't have any at this point.

This is only an FYI. You are not being asked to attend, but some of you expressed an interest in attending, so I wanted to make sure you were aware of the location and time.

Vonna
