Subject: Working Group Meeting #5

Working Group Members,

For those of you who were involved in the meetings yesterday to coordinate individual efforts, thank you for your time. All three of the meetings took place yesterday, and everybody seems to be heading in the right direction. Our next Working Group Meeting will take place tomorrow, **Wednesday, May 5th at 1:00pm in O-12B4**. This should be a short meeting (app. 45 minutes and no later than 1 hour).

At the meeting, I would like to go through the technical basis outline, and have each team member identify their draft Output #2, if any. Again, Output #2 is where we identify the need for follow up research or other technical activities to address any large uncertainties in the available information.

I'm in the process of reviewing your draft inputs, and integrating them into our draft technical basis paper. I will be e-mailing you the draft technical basis paper this afternoon. If you have the opportunity to read it before tomorrow's meeting, then we can discuss any questions that you may have.

Thank you,

Vonna
