Subject: Congratulations TWG!

TWG Members --

George Hubbard wanted me to pass on some feedback that he received at a recent DSSA staff meeting regarding the Technical Working Group (TWG) draft paper. He said that Gary Holahan commented on what a "good job" the TWG team did on the draft paper that was issued on June 16, 1999. Gary said that it was "well done."

I would also like to thank you all for your TWG efforts. We started this project with only 2 months to complete this paper, and we have made tremendous progress since the very first TWG meeting. Originally, the project was going to be completed by June 1999, but it was decided to pursue a workshop and an independent, technical review to make our draft report even more efficient and effective while increasing public confidence at the same time. Even though the project has extended to March 2000 due to these additional tasks, I wanted to let you know that your support in the first phase of this effort is greatly appreciated.

Thank you very much,

Vonna
