Gentlemen:

DOCKET NUMBER 50-483
CALLAWAY PLANT UNIT I
UNION ELECTRIC CO.
FACILITY OPERATING LICENSE NPF-30
PHYSICAL SECURITY PLAN, REVISION 32

Pursuant to the requirements of 10 CFR 50.54(p), Union Electric Company furnishes four copies of Revision 32 of the Callaway Plant Physical Security Plan. Distribution of these documents is outlined on the attachment. Changes incorporated into this revision are consistent with 10 CFR 50.54(p) and do not decrease the effectiveness of the security program.

Revision 32 reflects a recent plant organization change. The Vice President and Chief Nuclear Officer's title was changed to Senior Vice President and Chief Nuclear Officer. The other change included in the revision eliminates the temporary addendum added to the Security Plan in Revision 30A. This addendum was a single page reflecting a temporary change to a door configuration to accommodate the establishment of a temporary Health Physics Access Control Area (HPACA) during the time the normal HPACA was being remodeled. This remodeling work is completed, the normal HPACA has been re-opened, and the temporary HPACA closed and all doors returned to normal configuration.

If you have any questions regarding these documents, please contact M. R. Faulkner at (573)676-8833.

Very truly yours,

Handwritten signature of Garry L. Randolph.
