RE: Draft Guide 1087

Commission:

I responded to the Draft Reg Guide 1087 by email in early April 2001. It is apparent that the Draft Guide does not incorporate the most recent technical understanding and information regarding inleakage into Nuclear Power Plant Control Rooms.

In the unlikely event that this email correspondence is unreadable or otherwise unavailable to you, I have enclosed a paper copy of my response.

I look forward to your response to my comments.

Yours truly,

Peter L. Lagus, Ph.D., CIH  
President
