SUBJECT: 2001 Surety Update, TAC L52352

SUMMARY: A Homestake letter, dated March 30, 2001, stated that no adjustment to the current \$24,000,000 surety would be requested. The cost breakdown provided in the letter appears to justify this position. I called Mr. Cellan to inform him that although an **acceptance review** of the costs had been performed, no further action on the surety can be completed until receipt of financial information from the Homestake corporate office to justify a parent company guarantee. This information should be submitted as soon as possible to allow the NRC staff review to be completed prior to June 30, 2001.
