Subject: Gadolinium Burnable Absorber Rods

Dear Ms. Bennington:

On October 12, 2000 CE Nuclear Power, LLC will commence the shipment of 640 gadolinium burnable absorber rods from its Hematite, Missouri fuel fabrication facility to the KEPCO Nuclear Fuel Company under NRC License No. XSNM02258, Amendment 03. Pursuant to 10CFR73.72 listed below is the information required for your review:

Shipper: CE Nuclear Power, LLC
3300 State Road P
Festus, MO 63028
Contact: William J. Burns (636) 937-4691 Ext. 708

Receiver: Korea Nuclear Fuel Company
150 Deogjin-Dong, Yosung-GU
Taejon City, Choongnam
Republic of Korea
Contact: Yang, Han-shin Fax: +82-42-861-2380

Carrier: A. I. F. Company
500 Carson Plaza Dr., Suite 205
Carson, CA 90746
Contact: Mr. Don Kim (310) 323-0700

100200-1

The material to be shipped is contained in 640 unbound Zircaloy clad rods containing approximately 1,098 KgU as natural uranium dioxide, with each rod containing approximately 6 weight percent gadolinium (Gd_2O_3) poison. The KEPCO Nuclear Fuel Company will assemble the rods into fuel bundles to be used as reload fuel for the Yonggwang Unit 4 reactor.

The cargo will be transported by truck from Hematite, Missouri to Los Angeles, CA and then transported via air to South Korea. The shipment is expected to depart Hematite on Thursday, October 12, 2000 and arrive at the Korean Airlines Cargo Terminal in Los Angeles, California by October 14. Transport to South Korea via air will occur shortly afterwards.

If any significant changes occur with respect to either the schedule or the carrier we will notify you immediately. Should you require any additional information please feel free to call me at (636) 937-4691 extension 708.

Sincerely,

William J. Burns
