Subject: Meeting with NEI on Bob Henry report and TWG Study.

NRR + RES

The meeting discussed below is being finalized for Tuesday, February 6, 2001 at 1 PM in Room O 8B4. A meeting notice will be issued later this week. The purpose of the meeting is for NEI to tell us how they feel the Bob Henry report would effect the TWG study and its conclusions.

NEI has proposed a meeting date of Tuesday, February 6, 2001 for a meeting with the TWG Task Force to discuss the Bob Henry report which evaluates the phenomology and consequent releases of fission products for SFP accidents. This report was submitted to the NRC in a letter from NEI dated January 10, 2001. I have put the meeting on Gary and Tim's calendars for 1PM. This is just a heads up so you can put it on your calendars. I'm working with projects to finalize the time and date. I'll let you know when things are finalized.
