RE: Amendment request for 2 separate NRC Licenses.

Please amend the following;

1. USNRC Licenses #47-15717-03, Charleston Radiation Therapy Consultants, Charleston (CRTC) West Virginia 25304 byproduct materials license as follows; section 8.D to allow four source trains, not to exceed 188 GBq. and 9.D. to allow for two source trains for clinical use and two trains in a shipping container for source replacement and,
2. USNRC License # 47-15473-01 for Charleston Area Medical Center (CAMC) as follows; section 8.N. to allow four source trains, not to exceed 188 GBq. and 9.N. to allow for two source trains for clinical use and two trains in a shipping container for source replacement.

If you have any questions or require more information, please do not hesitate to contact me at (304) 345-0667 or sbryant961@aol.com.

Sincerely,

Isaac Warren Bryant, Jr.
Physicist & RSO for CRTC
