

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

May 4, 2001

Mr. Michael Schoppman, Project Manager
Licensing Department
Nuclear Energy Institute
1776 I Street, N. W.
Suite 400
Washington, DC 20006-3708

Dear Mr. Schoppman:

With the finalization of STS, R.2, the staff and the TSTF OG agreed that subsequent approved revisions to sections will be noted in the table of contents, as well as on each affected page, using a decimal number to indicate the number of revisions to that section, along with the date, e.g., (Rev 2.3, 04/01/01) indicates the third approved change and date since Revision 2.0 was published. Additionally, the final page of each LCO section will be a historical listing of the changes affecting that section. Enclosed are examples of that style as they will be depicted in each section. Further, we intend to use the TSTF number indicated within the History section as a hyperlink to the scanned TSTF itself. Any comments that the TSTF may have regarding this new style would be appreciated. Please keep in mind that we are near the final publication of STS, R.2, and have several TSTFs that will be processed shortly thereafter; therefore, we feel it is important to finalize this new style format as soon as possible.

Should the TSTF have any comments or questions, please do not hesitate to contact me on 301-415-1161 or by e-mail at RLD@nrc.gov.

Sincerely,

Robert L. Dennig, Acting Chief
Technical Specifications Branch
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

Enclosures: As stated
