Enclosure 1 to this letter documents your concern as we understand it. We have initiated actions to develop and examine the facts and circumstances of your concern. Therefore, if we have misunderstood or mischaracterized your concern as described in the enclosure, please contact me so that we can assure that it is adequately addressed prior to the completion of our review.

Enclosure 2 to this letter is the NRC brochure, "Reporting Safety Concerns to the NRC." The brochure contains information that you may find helpful in understanding our process for review of safety concerns. It includes an important discussion (on pages 5-7) of our identity protection procedures and limitations. Please read that section. It also includes a discussion of the right of an individual to file a complaint with the U.S. Department of Labor (DOL) if the individual believes she or he has been discriminated against for raising safety concerns and the individual desires a personal remedy.

The NRC is responsible for enforcement actions against utilities, vendors, or individuals who discriminate against individuals who raise safety concerns. DOL is responsible for providing personal remedies, such as reinstatement, backpay, etc. The NRC cannot provide you with personal remedies. This type of remedy can only come from DOL. For DOL to accept a complaint, it must be in writing and it must be submitted to DOL within 180 days of the discriminatory act. (Please see pages 8-10 of the brochure.) The office for processing your DOL complaint, should you decide to file, is as follows:
