Subject: Ch 3 for draft issuance

Ed, Tanya, Joe, and Larry

Attached is the latest version of Chapter 3 that will be issued as a draft by Tuesday (in concurrence on Friday) for public use.

This is not exactly what anyone originally wrote - there are no recommendations for further work or conclusions. As a result of the public meeting on June 7 and the NEI mtg with Sam on June 8 - it was decided by our management that a draft version (called a "draft study") would be issued to start the discussion process with our stakeholders that will lead us to interim exemption review criteria. We were asked to make any statements as preliminary and not final, so words may have been softened.

Please review the whole chapter (Larry is working on a revision to Section 3.3) and provide comments as early as possible. As mentioned above, this will go into concurrence on Friday. Sorry for the short notice - I know Ed is out this week - but this is the direction we received this morning. Please do the best you can.

Thanks - Diane
