

R. Barrett E. Thom

10/20/99

G. Hubbard M. Rubin

G. Parry J. Hannon Mike Cheek G. Kelly

Art Kohn - GPU. - Be ready to go.

1. Letter to Lynette asking for copy of Oyster Creek
decomm. risk assessment. See below

Bay to Lynette

Ed Scherrer SCF wants to
get this to us.

cc Ed

Cite on public record from meeting

"valuable info" "plant-specific"
"highly reliable heat removal system"

2. Paul Blanch
criticality

deterministic sequences?
INEL

Need good story
briefs, fuel movement

FMEA?

3. list of "commitments" suggestions in back of

Lynette will send letter of what are commitments

10/20/99

4. Canavara - We are way off on ignition temperatures.
1600°C.

4/7

Jerry Weiland

1) scenarios

2) how critical (how much power)

3) how long

4) consequences
