

May 7, 2001

Mr. Richard E. Gimple, Chairman
ASME Subcommittee on Nuclear
Inservice Inspection (SC XI)
Wolf Creek Nuclear Operating Corporation
MS CC-SUP
P.O. Box 411
Burlington, KS 66839-0411

Dear Mr. Gimple:

I wish to inform you that Mr. Gilbert Millman is resigning as a member of the ASME Subcommittee on Nuclear Inservice Inspection (SC XI). Mr. Millman's resignation is made necessary by his reassignment to another position within NRC in which developing codes and standards is not a functional responsibility.

I would like to nominate Mr. Wallace Norris as the authorized NRC representative on SC XI. Mr. Norris is the alternate to Mr. Millman and has represented the NRC on this committee at recent meetings. He has participated for 10 years in developing ASME codes and standards.

Mr. Norris' PF-1 form is enclosed.

It is requested that you process Mr. Millman's resignation and Mr. Norris' nomination at the same time. Until those actions are complete, Mr. Norris will continue to serve as Mr. Millman's alternate on SC XI.

In accordance with OMB Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an authorized NRC representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence to Mr. Norris should be addressed to:

U.S. Nuclear Regulatory Commission
ATTN: Mr. Wallace E. Norris
