

May 16, 2001

Charles B. Meinhold, President
National Council on Radiation Protection
and Measurements
7910 Woodmont Avenue, Suite 800
Bethesda, MD 20814-3095

Dear Mr. Meinhold:

I am responding to your letter to the Nuclear Regulatory Commission (NRC) dated April 10, 2001, requesting information that could assist the National Council on Radiation Protection and Measurements (NCRP) to align its proposal presentation and funding requests with each agency's budgeting process.

The NRC's budgeting cycle begins in January of each year. Proposals submitted to the NRC by November of the previous year would give the NRC staff sufficient time to review them prior to budget submission.

We would welcome a discussion with the NCRP on its proposed activities. In order for these activities to be beneficial to NRC, we would need assurance that reports would be produced on a schedule that was agreed upon in advance. We look forward to meeting with you to discuss NCRP activities and proposals. If you have any questions, please contact Cheryl Trottier at 301-415-6232.

Sincerely,

/RA/

Carl J. Paperiello
Deputy Executive Director
for Materials, Research and State Programs
