Glenn,

I gave the public comments to Richard Emch/Mark Rubin on Thursday afternoon via Susan. At the time I came down, Richard and Mark were both in meetings. So she said she'd give it to whoever came back from their meeting first. If you check with them, and neither has seen the public comments, please contact me. If you read it and are confused as to how the public comments in Attachment A are linked to the references in Appendix B, I can explain that. George set up a system for SPLB to sort through the comments, but it may not be so obvious to others who haven't worked with the public comments.

I will get you a hard copy of the latest/most up to date version of the report this morning.

Tanya

I have not received any comments, Tanya. I also need a copy of the latest and most up to date version of the report. Can you please get me a hard copy. Thanks.
