I'm trying to understand the concerns with Gautam's input and I want to make sure I have all the comments. We may have to have a meeting like we did on T/H issues to iron out all our concerns. This would include RES and maybe even Bob Kennedy along with Gautam and DSSA & DE management. This may be a good approach since everyone will have to sign off the report before it is issued.

Glenn, I have your comments from June 29. Do you have others? Also Mark indicated that Mike had some comments. Do you have those? Can we get together tomorrow so that I can understand your concerns?
