Subject: RES letter of August 25

I noticed that the letter from RES dated 8/25/00 (to be Appendix 4A) also has an attachment that addresses ACRS issues and public comments. Please get with Paula and have the cover letter removed from the final report as well as the answers to the ACRS issues and the public comments. (Make sure we keep an electronic version of the complete RES document). I'll get with Tim and see how he wants to handle the ACRS comments.
