Dear Mr. Bauer:

On August 3, 1984, the Commission issued Amendment Nos. 102 and 104 to Facility Operating License Nos. DPR-44 and DPR-56 for the Peach Bottom Atomic Power Station, Units Nos. 2 and 3. Certain pages issued with the amendments inadvertently omitted some material, and failed to redistribute other material.

The enclosed corrected Technical Specification page 256 for Units 2 and 3 reflect these changes.

We regret any inconvenience this change may have caused.

Sincerely,

Original signed by

Gerald E. Gears, Project Manager  
BWR Project Directorate #2  
Division of BWR Licensing

6.9.1 Routine Reportsc. Annual Safety/Relief Valve Report

Describe all challenges to the primary coolant system safety and relief valves. Challenges are defined as the automatic opening of the primary coolant safety or relief valves in response to high reactor pressure.

d. Monthly Operating Report

Routine reports of operating statistics and shutdown experience, and a narrative summary of the operating experience shall be submitted on a monthly basis to the Office of Management and Program Analysis (or its successor), U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, with a copy to the appropriate Regional Office, to be submitted no later than the 15th of the month following the calendar month covered by the report.
