Mr. Oliver D. Kingsley, President  
Exelon Nuclear  
Exelon Generation Company, LLC  
ATTN: Regulatory Services  
Executive Towers West III  
1400 Opus Place, Suite 500  
Downers Grove, IL 60515

SUBJECT: OFFICE OF INVESTIGATIONS (OI) REPORT NO. 3-2000-016

Dear Mr. Kingsley:

As a result of a concern that a Braidwood Unit Supervisor may have deliberately violated technical specifications and plant procedures related to control board panel walkdowns, the Nuclear Regulatory Commission (NRC) conducted an investigation regarding this matter. This investigation was initiated on March 20, 2000, by the U.S. Nuclear Regulatory Commission (NRC), Office of Investigations, Region III, to determine if a Braidwood Unit Supervisor deliberately violated technical specifications.

The NRC has completed its investigation into this matter. The NRC's investigation determined that the actions of the Unit Supervisor were not in violation of an NRC commitment or required procedure. Therefore, the allegation that a Braidwood Unit Supervisor deliberately violated technical specifications and plant procedures was not substantiated. A copy of the Region III Office of Investigations report synopsis is enclosed. This concludes the NRC's investigation into this matter.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response, if any, will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions concerning this matter please contact me at (630) 829-9500.

Sincerely,

/RA/

John A. Grobe, Director  
Division of Reactor Safety

## SYNOPSIS

This investigation was initiated on March 20, 2000, by the U.S. Nuclear Regulatory Commission (NRC), Office of Investigations, Region III, to determine if a Braidwood Unit Supervisor deliberately violated technical specifications.

Based upon the evidence developed during this investigation, and after review of this issue by the technical staff and Regional Counsel, it has been determined that the allegation was not a violation of an NRC commitment or required procedure. Therefore, the allegation that a Braidwood Unit Supervisor deliberately violated technical specifications was not substantiated.
