Vogtle Electric Generating Plant
Response to Regulatory Issue Summary 2001-08
Operating Reactor Licensing Action Estimates

Ladies and Gentlemen:

On April 2, 2001, the NRC issued Regulatory Issue Summary 2001-08, "Operating Reactor Licensing Action Estimates," which requested that licensees submit information pertaining to estimates of the number of licensing actions that will be submitted for NRC review for the remainder of Fiscal Year (FY) 2001 and for FY 2002. With regard to the Vogtle Electric Generating Plant, Southern Nuclear Operating Company estimates that four (4) submittals will be made during the remainder of FY 2001 and that eight (8) submittals will be made during FY 2002. It is anticipated that in FY 2002, the OTDT/OPDT Margin Recovery submittal may generate a complex review.

This estimate does not constitute a formal NRC commitment and may change due to shifts in priority and personnel availability.

Respectfully submitted,

J. B. Beasley, Jr.
