Docket No. 50-382  
License No. NPF-38  
Final Safety Analysis Report – Revision 11

Gentlemen:

In accordance with 10CFR50.71(e) and 10CFR50.4(b)(6), incorporating allowances provided by NRC Regulatory Issue Summary 2001-05 guidance on submitting documents, one CD-ROM electronic copy of the Waterford Steam Electric Station Unit 3 Final Safety Analysis Report (FSAR) Revision 11 is enclosed. This submittal reflects the update status of the Waterford 3 FSAR for the period from March 31, 1999 through November 30, 2000. A list of effective pages is provided on the CD-ROM.

Plant changes made under the provisions of 10CFR50.59 will be reported to the NRC pursuant to the requirements of Paragraph (b)(2) of 10CFR50.59 by separate submittal.

As required by 10CFR50.71(e)(2), I hereby certify, to the best of my knowledge and belief, that the information contained in Revision 11 of the Waterford 3 FSAR accurately presents changes (1) made since the previous submittal necessary to reflect information and analyses submitted to the NRC, (2) prepared pursuant to NRC requirements, or (3) made under the provisions of 10CFR50.59.
