MEMORANDUM TO: Those on the Attached List

FROM: William D. Travers */RA by William F. Kane Acting For/*
Executive Director for Operations

SUBJECT: JUNE 2001 AGENCY ACTION REVIEW MEETING

During the period June 26-28, 2001, the agency will conduct the first "Agency Action Review Meeting" (AARM) under the auspices of the Reactor Oversight Program. Discussions related to reactor plants, industry trends and ROP self-assessment will be guided by draft Management Directive (MD) 8.14, "Agency Action Review Meeting."

In light of the presence of numerous senior agency managers to support the AARM discussions, it is practical to take some time to discuss issues of broad management interest. Thus, I have scheduled a series of discussions for Wednesday, June 27, 2001, on a diverse range of topics. The complete agenda covering both AARM discussions and general management discussions is attached. Individuals have been designated to lead selected topics as noted in the agenda and these individuals should develop and distribute reference information as appropriate.

While only staff and management associated with the implementation of the ROP need attend the AARM discussions on June 26 and June 28 as specified in draft MD 8.14, I would like to invite all offices addressed on this memorandum to participate in the discussions of broad management issued slated for June 27. Participants should be limited to Office Directors or Deputy Office Directors. Accommodations can be arranged in accordance with the attached memo on logistics issued by Luis Reyes on May 10, 2001.

Any questions regarding this agenda should be directed to Scott Morris (415-1730) or Joe Shea (415-1727) of my staff.
