TITLE: COMMUNICATIONS TESTS

### USER ALERT INFORMATION USE PROCEDURE

The activities covered by this procedure may be performed from memory.

#### 1.0 PERSONNEL RESPONSIBILITY

- 1.1 Emergency Planning shall ensure that monthly and quarterly communication tests are conducted.
- The Emergency Preparedness Section shall have overall onsite control of the Emergency Planning radio system. They will ensure that radio testing/monitoring is performed monthly and report problems/equipment failures to Radio Systems Engineering (Jackson) for repair. Attachment 1 to WI-RSD-T-001 shall be completed and send it to Engineering Records Center (ERC) after review/approval.

#### 2.0 **PURPOSE**

The purpose of this procedure is to ensure that the Emergency Communications System is functional and that emergency response telephone numbers are correct. Portions of these tests are required specifically by 10CFR50, Appendix E, and Section 8 of the Site Emergency Plan.

#### 3.0 **REFERENCES**

#### 3.1 **SOURCE DOCUMENTS**

- 3.1.1 Site Emergency Plan Section 8, "Maintaining Emergency Preparedness"
- 3.1.2 NUREG 0654

	3.2.8	PPAC X-SEP006
	3.2.9	PPAC X-SEP007
	4.0	INITIAL CONDITIONS AND/OR REQUIREMENTS
	4.1	This procedure fully meets the intent of 10CFR50, Appendix E. The specific communication links tested are the links that are used during operation of the Plant and during classified events.

Proc No El-15.2 Revision 7 Page 3 of 5

TITLE: COMMUNICATIONS TESTS

#### 5.0 **PROCEDURE**

#### **USER ALERT**

INFORMATION USE PROCEDURE

The activities covered by this procedure may be performed from memory.

- NOTE: Changes made to telephone numbers in this procedure may impact other Emergency Implementing procedures. These include El-1, "Emergency Classification and Actions"; El-3, "Communications and Notifications"; El-4.1, "Technical Support Center Activation"; El-4.2, "Operational Support Center Activation"; El-4.3, "Emergency Operations Facility."
- 5.1 <u>Monthly</u>: Occurring within a calendar month. From month to month, no sooner than 2 weeks (eg, if done on 6/20, then no sooner than 7/4).
- 5.1.1 The assigned person performs the designated monthly checks using Attachment 1, Monthly Communications Test. PPAC X-SEP007 calls up this activity.
- 5.1.2 The autodialers and FTS-2001 telephones shall be tested by dialing the appropriate number and transmitting a simulated message such as:
  - "This is the Palisades Nuclear Plant testing its emergency communications system. This message is to verify that the system is working."
- 5.1.3 The telephone number for the Michigan State Police Predisaster Services shall be tested by dialing the appropriate number from a commercial line in the Technical Support Center and informing the State of the number of the commercial line that this call is being made from.
- 5.1.4 System failures or incorrect telephone numbers should be noted in the comments section. Plant Nuclear Emergency Planning Coordinator or designate shall ensure corrective actions are taken.

Proc No El-15.2 Revision 7 Page 4 of 5

**TITLE: COMMUNICATIONS TESTS** 

5.2	Quarterly: Occurring within a calendar quarter (Jan-Mar; Apr-Jun; Jul-Sept; Oct-Dec). From quarter to quarter, no sooner than 60 days (eg, if done on 3/25, then no sooner than 5/25).
5.2.1	The assigned person performs the designated quarterly checks using Attachment 2, "Quarterly Communications Test Telephone Number Verifications," Attachment 3, "Quarterly Communications Test Telephone Operability Verification," and Attachment 4, "Quarterly Communication Test Sound Powered Phones." PPAC X-SEP006 calls up this activity
5.2.2	Attachment 2, "Telephone Number Verifications" shall be tested by dialing the appropriate number from a commercial line and transmitting a simulated message. (See Step 5.1.2)
5.2.3	Attachment 3, "Telephone Operability Verification" shall be performed by ensuring telephones are connected to appropriate jacks and testing for dia tone.
5.2.4	System failures or incorrect telephone numbers should be noted in the comments section. Corrections are made by the Plant Nuclear Emergency Planning Coordinator (EPC) or designate.
5.3	The purpose of the Annual Communications Test is to verify the accuracy of phone numbers that appear in Emergency Implementing Procedures.
5.3.1	The person performing the Annual Communications Test should use Attachment 5 of this procedure. PPAC X-SEP006 calls up this activity to be done during the fourth quarter of the year.

Incorrect phone numbers should be noted in the "Comments" section of

Sponsors of procedures which contain incorrect phone numbers should be

5.3.2

5.3.3

Attachment 5.

notified of incorrect numbers.

\* This test should be done from your desk. It takes two (2) people to accomplish this test. The first person initiates the call from a Consumers Energy phone line dialing 7-788-2161 and the second person also calls 7-788-2161 (if calling from a Consumers Energy phone line). The phone will keep ringing until the second person places their phone call. This will activate the conference line. Do the same with 7-788-1970. If the second person calls from an outside line, they must dial 1-517-788-2161 and/or 1-517-788-1970.
