Subject: Control Room Ventilation  
R.E. Ginna Nuclear Power Plant  
Docket No. 50-244

Dear Mr. Vissing:

As discussed in our February 1, 2001 letter on this subject, RG&E is in the process of upgrading our Control Room Ventilation System. We expect that this will result in a future License Amendment application. Please initiate a TAC number to facilitate our future discussions on this subject, prior to our formal request for a Technical Specification change.

Very truly yours,

  
Robert C. Mecreddy
