Discrepancies Discovered in Basis for NRC Resolution of Unresolved Item

In a letter dated December 9, 1996, Consumers Energy Company submitted responses and copies of two engineering analyses to support resolution of Unresolved Item (URI) 255/95004-05. This information was subsequently referenced in an NRC letter dated October 14, 1997, (TAC NO. M94148) which provided the NRC evaluation of the unresolved inspection item. Review of the December 9, 1996 letter has identified errors in the information provided.

This issue has been captured in the Palisades Corrective Action program. Appropriate actions will be taken, including, as necessary, revising the affected analyses, and providing corrected information on the docket. We expect to provide any necessary corrected information on the docket on or before May 25, 2001.

SUMMARY OF COMMITMENTS
