SUBJECT: REVIEW OF GUIDANCE FOR LONG-TERM SURVEILLANCE PROGRAM

Dear Mr. Kleinrath:

The U. S. Nuclear Regulatory Commission staff has reviewed "Guidance for Implementing the Long-Term Surveillance Program for UMTRCA Title I and Title II Disposal Sites," dated April 2001. Based on this review, we conclude that the document is acceptable.

The purpose of this revision is to broaden and supercede the previous guidance (February 1996) to include Title II sites, in addition to Title I sites. Our review indicates that has been done and that this document addresses NRC staff comments (on a previous draft) that were provided to you by letter dated December 29, 2000.

This review was performed by Ted Johnson. If you have any questions, please contact Mr. Johnson at (301) 415-6658.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

/RA/
