

October 27, 1999

NOTE TO FILE

FROM: Joe Joyce, NRC/NRR

ALLEGATION NO. NRR - 1999 - A - 0057

On October 27, 1999 I called the allegor to inform him of our intentions to contact some experts on texture analyses. The allegor was not home so I left the following message on his recorder. Told the allegor we were contacting some experts to help us understand the safety significance of his allegation. Explained that the experts we were going to talk to were NOT associated with Lambda Research or GE Nuclear.

I

Told the allegor if he had any questions regarding this phone call he could call me in the morning. I gave him my office telephone number and told him I would be at my desk by 6:45 am.

I also stated that IF we did not hear from him, first thing tomorrow (10/28/99) morning, we would assume that he agreed with our proposed actions.

A)))
