RE: CHECKLIST NOT USED

A checklist was not used in this case since the change from Ion Track to iT i Qualitek was essentially from one division of the company to another although Ion Track division decided to break away and form its own company. Hence the change to the registry and new vendor code from NR-0399-D-103-E to NR-1128-D-101-E. All the same drawings and commitments remain unchanged. Iti Qualitek parent company in UK remains the manufacturer.
