THANKS A LOT FOR YOUR QUICK REPLY. ~~PLEASE DO ENROLL MS. VERONICA GODINEZ SANCHEZ FOR THE COURSE ON JULY 2000.~~ YOU ARE QUITE RIGHT, DEALING WITH THE GREENS IS SOMEWHAT ANNOYING. IN ANY CASE FROM WHAT WE KNOW WANO'S MISSION GAVE A FOUR TO LVNPP. ACCORDING TO ITS SCALE A FOUR CORRESPONDS TO AN ACCEPTABLE LEVEL. ALSO, IT SEEMS THAT THE GRADE WAS MAINLY THE RESULT OF THE NUMBER OF FINDINGS (THAT IS, A PARTICULAR TYPE OF FINDING OCCURED SEVERAL TIMES) RATHER THAN ITS IMPACT TO SAFETY. THE CNSNS HAD POINTED OUT ITS CONCERNS, IN THIS RESPECT, TO LVNPP, WHICH IN OPINION OF CNSNS SHOWED SOME KIND OF COMPLACENCY AND LACK OF COMMITMENT TO THE PRINCIPLES OF THE SAFETY CULTURE. LVNPP IS ALREADY IMPLEMENTING A SPECIFIC PROGRAM TO CORRECT THE CURRENT STATE OF AFFAIRS. I WILL KEEP YOU INFORMED OF THE DEVELOPMENT OF THE WHOLE THING.

mention to Jodi

REGARDING THE TRAINING OFFERED BY THE IAEA TO THE UNIVERSITY OF MEXICO OUR POSITION REMAINS THE SAME. NAMELY WE WELCOME SUCH TRAINING AND WE FULLY SUPPORT THE DELIVERY OF THE RELAP5 CODE TO THE UNIVERSITY. AS TO THE BENEFIT FOR CNSNS, IT IS AN STRAIGHTFORWARD MATTER. FROM TIME TO TIME THE CNSNS REQUESTS TECHNICAL SUPPORT FROM THE UNIVERSITY, IF THEY HAVE WELL TRAINED STAFF AND "AD HOC" TOOLS, WHICH WOULD BE THE PRESENT CASE, THEN CNSNS WOULD CERTAINLY RELY MUCH MORE OFTEN ON THE UNIVERSITY FOR ITS THERMALHYDRAULIC ANALYSIS. HOPEFULLY THIS WILL HELP YOU TO FAVOR THE SUPPORT OF THE OIP TO SUCH TRAINING. REGARDS SERGIO.

[China Mexico]

Call Farouk -

Can IAEA transfer codes
or

Does he have to give codes

IAEA - training Univ in China / Mexico
in use of thermal hydraulic codes

Farouk to train Mexico + China
Program on hold

offer Mexico CANS membership
\$25K

Can ask for waiver
Give training without giving the code A/118
