Dear Mr. Hunger:

SUBJECT: PEACH BOTTOM ATOMIC POWER STATION, UNIT NOS. 2 AND 3, REVISION TO
APPENDIX B OF OPERATING LICENSE (TAC NOS. M88141 AND M88142)

The Commission has issued the enclosed Amendments Nos. 183 and 188 to Facility Operating License Nos. DPR-44 and DPR-56 for the Peach Bottom Atomic Power Station, Unit Nos. 2 and 3. These amendments consist of changes to the Technical Specifications (TS) in response to your application dated October 5, 1993.

These amendments would revise the Plant Operating Review Committee (PORC) review, the Nuclear Review Board (NRB) review, Radiological Environmental Monitoring Program requirements, position titles, and the organization chart in Appendix B of the TS to be consistent with Appendix A of the TS.

A copy of the Safety Evaluation is also enclosed. Notice of Issuance will be included in the Commission's Bi-Weekly Federal Register Notice. You are requested to notify the staff, in writing, when these amendments have been implemented.

Sincerely,
Original signed by:

ATLANTIC CITY ELECTRIC COMPANY

DOCKET NO. 50-277

PEACH BOTTOM ATOMIC POWER STATION, UNIT NO. 2

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 183
License No. DPR-44

1. The Nuclear Regulatory Commission (the Commission) has found that:
 - A. The application for amendment by Philadelphia Electric Company, et al. (the licensee) dated October 5, 1993, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations set forth in 10 CFR Chapter I.
 - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
 - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
 - D. The issuance of this amendment will not be inimical to the common defense and security or to the health or safety of the public; and
 - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.
2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to this license amendment, and paragraph 2.C(2) of Facility Operating License No. DPR-44 is hereby amended to read as follows:

(2) Technical Specifications

The Technical Specifications contained in Appendices A and B, as revised through Amendment No. 183, are hereby incorporated in the license. PECO shall operate the facility in accordance with the Technical Specifications.

3. This license amendment is effective as of its date of issuance.

7.1 Organization, Review and Audit

7.1.1 Organization

- A. The Plant Manager is responsible for the operation of the facility and to assure that the facility operates within the limits set forth in the environmental technical specifications.
- B. In all matters pertaining to operation of the facility and to the environmental technical specifications, the Plant Manager shall report to, and consult with the Vice President-PBAPS.

7.1.2 Review and Audit

Committees for review and audit of plant operation are described in Section 6.5 of Appendix A to the Operating License.

PBAPS

- 7.2 Action to be Taken if a Protection Limit or Report Level is Exceeded or if Harmful Effects Detected
- 7.2.1 For the purpose of this specification, an environmental deviation shall be considered as defined in Section 1.0.
- 7.2.2 Any environmental deviation shall be reported immediately to the Plant Manager or, in his absence, the Vice President - PBAPS, and promptly reviewed by the Plant Operations Review Committee. This Committee shall prepare a separate report for each environmental deviation. This report shall include an evaluation of the cause of the deviation, the extent and magnitude of the impact, and recommendations for appropriate action to prevent or reduce the probability of such a deviation.

PBAPS

7.2.3

Copies of all such reports shall be submitted to the Vice President - PBAPS, and to the Chairman of the Nuclear Review Board for review and approval of any recommendations.

7.2.4

The Vice President - PBAPS shall report the circumstances of any environmental deviation to the NRC as specified in Section 7.4.2.

7.2.5

If harmful effects or evidence of irreversible damage not considered in the Final Environmental Statement are detected by the monitoring programs, the licensees will provide to the staff an analysis of the problem and a plan of action to be taken to eliminate or significantly reduce the detrimental effects or damage.

PEACH BOTTOM ATOMIC POWER STATION, UNIT NOS. 2 AND 3

DOCKET NOS. 50-277 AND 50-278

1.0 INTRODUCTION

By letter dated October 5, 1993, the Philadelphia Electric Company (the licensee) submitted a request for changes to the Peach Bottom Atomic Power Station (PBAPS), Unit Nos. 2 and 3, Technical Specifications (TS). The requested changes would revise the Plant Operating Review Committee (PORC) review, the Nuclear Review Board (NRB) review, Radiological Environmental Monitoring Program requirements, position titles, and the organization chart in the Environmental TS contained in Appendix B to be consistent with Appendix A of the TS.

2.0 EVALUATION

The licensee has proposed the following changes to Appendix B of the TS:

- (1) Delete Table 6.4-1, titled "Environmental Radiation Monitoring Program";
- (2) Replace the position title "Plant Superintendent" with "Plant Manager" in Section 7.1.1 Organization, and require the Plant Manager report to the Vice President of PBAPS;
- (3) Replace the position titles "Superintendent, Nuclear Generation Division" and "Superintendent Nuclear Services" to "Plant Manager" and "Vice President-PBAPS" respectively;
- (4) Delete Section 7.1.2.A Plant Operation Review Committee (PORC);
- (5) Delete Section 7.1.2.B Nuclear Review Board (NRB);
- (6) Delete Section 7.3 Unit Operating Procedures;
- (7) Delete Figure 7.1-1, titled "Management Organization Chart."

All of the proposed changes delineated above are administrative in nature, as discussed below:

- (1) Table 6.4-1 may be deleted because Section 4.8.E of Appendix A of TS contains the requirement for a Radiological Environmental Monitoring Program, and Section 6.5 of Appendix A TS covers control of changes to the program.
- (2) Revisions are to modify position titles and to require additional reporting chain from the Plant Manager to the Vice President.
- (3) Revisions are to modify position titles.
- (4) The PORC process is contained in the administrative procedures, Section 6.5, "Review and Audit," of Appendix A TS.
- (5) The NRB process is contained in the administrative procedures, Section 6.5, "Review and Audit," of Appendix A TS.
- (6) Section 7.3 Unit Operating Procedures may be deleted. Section 6.8 of Appendix A TS specifies the Unit Operating Procedures and Check-off lists, and Section 6.5 of Appendix A covers control of changes.
- (7) The removal of the management organization chart is consistent with the changes approved in Amendments 155/157 for Appendix A in response to Generic Letter 88-06, "Removal of Organization Charts from Technical Specification Administrative Control Requirements."

On Page 49 of the Appendix B TS pages, the licensee made two typographical errors. With the licensee's concurrence, the staff corrected the errors by changing "Protective" to "Protection" and "An" to "Any".

The staff concludes that the proposed changes to Peach Bottom Atomic Power Station, Units 2 and 3, Environmental TS contained in Appendix B of the TS, revising the PORC review, the NRB review, Radiological Environmental Monitoring Program requirements, position titles, and the organization chart are administrative in nature and consistent with Appendix A of the TS. Therefore, the proposed changes are considered acceptable.

3.0 STATE CONSULTATION

In accordance with the Commission's regulations, the Pennsylvania State official was notified of the proposed issuance of the amendments. The State official had no comments.

4.0 ENVIRONMENTAL CONSIDERATION

The amendments relate to changes in recordkeeping, reporting, or administrative procedures or requirements. Accordingly, the amendments meet the eligibility criteria for categorical exclusion set forth in 10 CFR

51.22.(c)(10). Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need to be prepared in connection with the issuance of the amendments.

5.0 CONCLUSION

The Commission has concluded, based on the considerations discussed above, that: (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of the amendments will not be inimical to the common defense and security or to the health and safety of the public.
