SUBJECT: TURKEY POINT NUCLEAR PLANT REACTOR OPERATOR INITIAL RETAKE
EXAMINATION - 50-250/2001-301 AND 50-251/2001-301

Dear Mr. Plunkett:

On May 4, 2001, the NRC administered a Reactor Operator (RO) initial retake examination to an employee of your facility who had applied for a license to operate the Turkey Point Nuclear Plant. The NRC waived the written examination and part "B" and "C" of the operating examination. At the conclusion of the examination, the examiner discussed the examination questions and preliminary findings with those members of your staff identified in the enclosed report.

The RO applicant who received this portion of the operating examination passed the examination, representing a 100 percent pass rate.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact me at (404) 562-4638.

Sincerely,

/RA/
