Subject: Re: Meeting with NEI on Bob Henry report on TWG study--- Reminder

I have other meetings that will last until 10:00. I will show up shortly after 10:00. I think it might be a good idea to invite Joe Staudenmeier as well since a significant portion of the NEI letter addresses thermal hydraulic analysis.

>>> David Diec 01/31 2:57 PM >>>
Folks--

This is a reminder that the meeting is for tomorrow, from 9:00 to 11:00 am, in rm O 11B2.

The proposed discussion points as follow:

- 1) What impact Bob Henry's report would have on our report?
- 2) What do we agree and not agree with Bob's argument?
- 3) What are the CODEX and PHEBUS FPT1 tests and their relevance to a SFP accident?
- 4) Other technical issues with Bob's analysis

If you have opinions with the above discussion points, please prepare a short writeup of those issues and make them available at the meeting. This would help documenting your points better.
