

NEI

5/11/01

Partial D. in down

# Recommendations

Staff Notes from 2/6/01  
NEI meeting

- Complete report prior to applying results
- Conduct formal peer review
- Apply complete study to a test case regulation, e.g., maintenance rule.

Henry - → Ru release  
 (using) Mission - Mechanistic evaluation  
 Ru, Partial down downs, cast drop  
 MY Load & drop  
 No leakage > 5gpm  
 Below grade On bed & rock  
 Drive to zero  
 Appendix 3  
 Footnote  
 Won't fail pool  
 MY has both  
 Max things report  
 re focus on cast drop.

Operating Facilities?  
TWA & Process & how we apply risk to regulations

NEI

Fire fire never going to zero

Encourage

Differences in PWR v BWRs

Drop Cask Torando Impact tests at  
SNL

MM little more work can reduced  
Re release by 2 orders of  
magnitude

Dave Lochbaum

Not recommend more work  
Should be under Part 72

Plant PRA not open to public

~~Core~~ Term commitments & order of  
magnitude - where

WCS ~~doesn't~~ believe any plants meet  
10 commitments

Lost Thing security

No number

Force <sup>of</sup> Force on operating 5% success  
Calculate health less than margin  
Qualitative

General Comments

Prof. James Atherton

Dr. Huxner report & PRA

- No substantiative  
How do you instill public confidence
- Seismic check lists  
How do you ~~verify~~<sup>ify</sup> through checklist  
Particularity.
- Not realistic addressed
- Experimental test to show what is  
out there
