DOCKET NUMBER
PROPOSED RULE # 159,170+171
(66FR 16982)

Secretary
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Attn: Rulemaking and Adjudication Staff

Dear Sir/Madam,

It has come to my attention that the NRC wishes to impose a tax of \$450.00 because we have an isotope, in our facility, used in our measuring equipment. I would like to voice my disagreement with this tax.

Everyday my company has to look for ways to avoid or reduce costs to remain competitive and keep our customers from going offshore for their needs. It may not sound like much but these dollars would have to be rolled into our overall cost of doing business further eroding our competitiveness.

Please consider all the ramifications before imposing the tax. Thank for your time.

Sincerely,

Lawrence C. Dexter
VP-Quality
