RE: Regulation Assessment Tracking System; RATS Data Sheet ID #2000-1

Dear Mr. Combs:

The Division of Radiation Control (DRC) is proposing a change to the Utah Administrative Code. The proposed changes pertain to: R313-38, "Radiation Safety Requirements for Wireline Service Operation and Subsurface Tracer Studies." The proposed changes pertain to the repeal and reenactment of R313-38. This rulemaking addresses compatibility matters and should satisfy NRC compatibility requirements. Note that the proposed change incorporates 10 CFR 39 (2001 edition) by reference.

The proposed rule will be transmitted: by electronic mail in Corel WordPerfect 8 format with "wpd" as the file extension, by facsimile transmittal, and as "hard copy" documents.

The Utah Radiation Control Board will meet on June 1, 2001. It is anticipated that the Board will approve the proposed rulemaking action so that the rule(s) may be filed with the Utah Department of Administrative Services, Division of Administrative Rules and notice be given to the public. The comment period is anticipated to be from July 1, 2001 to July 31, 2001. The possible effective date of this rulemaking action could be August 10, 2001.

If you have questions about the rule, please contact Julie Felice or Craig Jones at (801) 536-4250.

Sincerely,

for 
William J. Sinclair, Director
Division of Radiation Control
