1. PURPOSE

1.1 Objective

This procedure provides instructions to test the Emergency Notification and Response System (ENRS) for State and Local Officials, Station Emergency Response Organization (SERO), and the public address system which are components of the Millstone ENRS.

Performance of this procedure ensures these components are operable and can satisfy the requirements of 10CFR50 Appendix E.

1.2 Discussion

ENRS components are tested to ensure the capability exists to notify and verify response by State and Local officials within the EPZ, as well as, SERO personnel in the event of an actual emergency.

1.3 Applicability

This procedure is applicable in all MODES.

1.4 Frequency

1.4.1 The ENRS radiopager test schedule for State and Local Officials is performed monthly as follows:

- State and Local Officials shall be tested on the first Wednesday of each month at 1000 hours \pm 5 minutes.
- If the first Wednesday is a holiday, the test is performed on the following Thursday.
- If the first Wednesday is a drill or exercise day, the test may be exempted and/or performed on the following Thursday upon approval of the Process Owner (PO), Emergency Planning. |②
- State and Local Officials may be included in the monthly unannounced SERO test with the State Office of Emergency Management approval and authorization of the PO, Emergency Planning. |②

C OP 606
Rev. 004-02
2 of 29

1.4.2 The ENRS radiopager test schedule for SERO notification is performed monthly as follows:

- Under the direction of the PO, Emergency Planning with concurrence of the appropriate Unit Shift Manager. |②
- This test may be combined with the State and Local official test.

1.4.3 Performance of the monthly radiopager test, drill messages, or real events on the scheduled test day satisfies the requirements for the daily tests (if they occur between 0800–1600).

1.4.4 All actions are at the applicable operator terminal unless otherwise indicated.

1.4.5 If an emergency planning drill is being conducted on a Wednesday and State and Local Officials are participating, drill initiation via radiopager will satisfy the weekly test requirement of C OP 608, “Communication – Radiopaging and ENRS Daily and Weekly Operability Tests.”

2. PREREQUISITES

2.1 **General**

- 2.1.1 Personnel performing this procedure are familiar with equipment operation.
- 2.1.2 Attachments are maintained at the Unit 3 Shift Technician's work station.
- 2.1.3 The affected unit control room has been notified prior to performing the test on the ENRS terminal.
- 2.1.4 Unit 3 SM or US has authorized testing by signing and dating Attachment 1.

2.2 **Documents**

- 2.2.1 EPUG-08B, "Millstone Emergency Plan Resource Book"
- 2.2.2 MP-16-CAP-SAP01, "Condition Report Initiation"
- 2.2.3 NDM 1, "Turnover and Retrieval of Nuclear Plant Records"
- 2.2.4 WC 1, "Work Control"

2.3 **Personnel**

- 2.3.1 The following personnel are responsible for calling in within designated time frames to acknowledge the receipt of the test announcement, as appropriate:
 - Station Emergency Response Organization On-Call personnel
 - Station Emergency Response Organization Subject-to-Call personnel
 - State and Local Officials

2.4 **Definitions**

- 2.4.1 CV - Callback Verification (i.e., "Groups-in-callout")
- 2.4.2 EPSD - Emergency Planning Services Department
- 2.4.3 PAGE - To contact using pager system

2.4.4 "RapidReach Overview" screen – Allows visual observation of past or present callout status.

2.4.5 "EasyView" screen – Provides a graphical presentation of the status of the current callout.

3. PRECAUTIONS

- 3.1 Failure to select the correct scenario may result in unwarranted activation or the release of misinformation.
- 3.2 An actual event takes precedence over testing. The monthly test shall be postponed until after the release or termination of the real event.
- 3.3 No system maintenance or activities are to be performed concurrent with testing performed by this procedure.
- 3.4 ENRS phone server is on-line (no red lights observed)
- 3.5 If using "RapidReach Primary," "EasyView Primary" must also be used and vice versa.
- 3.6 If at any time, a system error occurs or communication is lost with the primary server, and a call-out has started, the red traffic light in "EasyView" should be selected to stop the call-out. ENRS shall be assessed for operability or function with respect to 10CFR50.72 criteria.

4. INSTRUCTIONS

4.1 **Initial Signoff**

4.1.1 Refer To and COMPLETE Attachment 1, as follows:

- a. INDICATE which of the following tests will be performed and WRITE "N/A" sections *not* to be performed:
 - 1) State and Local Officials (Partial Surveillance)
 - 2) SERO (Partial Surveillance)
 - 3) State and Local Officials and SERO (Full test)
- b. VERIFY prerequisites in Section 2 have been completed.
- c. VERIFY precautions in Section 3 have been noted.
- d. INITIAL and DATE "Prerequisites Completed" and "Precautions Noted."

4.1.2 IF off hours OR SERO test, ENSURE test has been authorized by PO, Emergency Planning, and appropriate Unit Shift Manager.

4.2 ENRS Monthly Radiopager Operability Test

NOTE

1. If any of the following is experienced, the ENRS should be immediately assessed for operability or function with respect to 10CFR50.72 criteria:
 - A system error occurs
 - Communication is lost with the primary server
2. It is the intent of the station that appropriate personnel are immediately called in to assess the operability or function of the ENRS and are available to assist the Shift Technician with preparations should notification of a communications failure be required using an alternate means.
3. If the Shift Technician is unable to easily perform a routine test from the applicable control room on the scheduled day, due to concurrent control room activities, the test may be performed from an alternate location with Emergency Planning concurrence.

4.2.1 IF at any time, one of the following occurs, AND a call-out has started, SELECT the red traffic light in “EasyView” to stop the call-out and Refer To Section 4.4, “Backup and Remote Operation:”

- A system error occurs
- Communication is lost with the primary server

4.2.2 OPEN “RapidReach Primary” folder and “RapidReach” icon.

4.2.3 At “RapidReach Login” screen, SELECT user ID and ENTER password.

4.2.4 OPEN “EasyView” icon.

4.2.5 At “EasyView Login” screen, SELECT user ID and ENTER password.

4.2.6 IF testing SERO only, Go To step 4.2.11 to transmit message.

4.2.7 IF testing State and Local Officials (Partial Surveillance) OR State and Local Officials AND SERO (Full Surveillance), ENTER IRF data, as follows:

- a. OPEN "IRF" form.
- b. Using Attachment 2, ENTER IRF information into IRF template.
- c. PRINT IRF and VERIFY information is correct.

4.2.8 OBTAIN SM initials on printed IRF.

4.2.9 SAVE IRF as follows:

- a. SELECT "File" and "Print."

NOTE

Saving the IRF form to "Print-to-Image" attaches the fax to the radiopager message.

- b. SELECT "Print-2-Image."
- c. At "Select Configuration" box, SELECT appropriate setup.
- d. At "Select Message to Fax," screen, SELECT "Root" tree.
- e. At "Root" tree, SELECT appropriate message:
 - Test Call-Outs
 - Call Into System Page

4.2.10 RECORD IRF data, as follows:

- a. MAXIMIZE "RapidReach" screen.
- b. SELECT "microphone" icon ("Show Message Window").
- c. At "Root" tree, SELECT "Informational Message."
- d. At "Audio Message" screen, SELECT "microphone" icon.
- e. RECORD entire IRF.

- f. **VERIFY** recorded information is satisfactory and **SELECT** "OK."

4.2.11 **TRANSMIT IRF** message, as follows:

- a. At "Root" tree, **SELECT** appropriate message:
- Test Call-Outs
 - Call Into System Page
- b. **LISTEN** to the "Alpha Pager Message" and **VERIFY** information is correct (message may be recorded again, if necessary).

NOTE

Attachment 6, "Scenario Chart," is provided as guidance for selecting the appropriate scenario.

- c. **MAXIMIZE** "EasyView" screen and **SELECT** appropriate scenario.
- d. **SELECT** "lightning bolt" icon.
- e. **SELECT** "Set Common Message."
- f. At "Root" tree, **SELECT** appropriate message:
- Test Call-Outs
 - Call Into System Page

 **CAUTION** 

The scenario and message must be read and verified prior to selecting the "Start" button.

- g. **STOP** and **VERIFY** scenario and message are accurate.
- h. At "Start of Scenario" screen, **SELECT** "Start."

4.2.12 VERIFY radiopager sent, as follows:

- a. MONITOR "RapidReach Overview" screen and SELECT most recent scenario number from call-out grid box (the top box) to verify appropriate groups or individuals have been paged.
- b. VERIFY page message sent to Control Room console pager.

NOTE

If either of the following conditions exist, the radiopager transmission has failed:

- Controlled pager on the console has *not* activated within approximately 3 minutes.
- No responders call in within approximately 5 minutes after release of the IRF radiopager message.

- c. IF radiopager transmission has failed on all ENRS Systems (Primary, Backup and Remote), Refer to Section 4.5, "ENRS Failure."
- d. MONITOR "EasyView" and "RapidReach" screens as positions call back acknowledging page.
- e. VERIFY fax is received in respective Control Room, as applicable.
- f. At "Overview" screen, PRINT "Groups-in-Call-Out" callback verification report.
- g. IF call-out is complete OR a new call-out needs to be initiated, SELECT the red traffic light in "EasyView" to deactivate the call-out in progress.

4.2.13 IF ENRS is *not* operable, Refer To Section 4.5, "ENRS Failure," and EPUG 08B, "Millstone Emergency Plan Resource Book," Section "Off-Site Towns/Agencies," and **manually FAX** notifications to State and Local Officials.

NOTE

The following announcement is made because the station has experienced intermittent pager reception within some power block areas.

- 4.2.14 **IF** SERO is being tested, after SERO group page is verified, **ANNOUNCE** the following to station personnel using the plant priority PA system:

“Attention all Station personnel.

There is a monthly communications drill in progress.

All SERO personnel required to respond, call in now.

There is a monthly communications drill in progress.

All SERO personnel required to respond, call in now.”

- 4.2.15 **RECORD** IRF information satisfactory and announcement time on Attachment 1.

4.3 Monitoring and Callback Verification

NOTE

1. Failure of more than half of the required State and Local Officials to respond following call-out transmission may be indicative of an equipment malfunction.
2. Callback verification via printed CV report cannot be performed from a "client" server if the radiopager message was transmitted via "EasyView Remote." This information can be obtained from Bldg. 475 server or EOF server only.

4.3.1 IF the following have *not* called in, **ATTEMPT** callback verification within approximately 30 minutes after event message has been transmitted:

- State of Connecticut DEP Dispatch
- State and Local Officials

4.3.2 **PRINT** CV report (i.e., individuals in group) to document callback responses.

4.3.3 Refer To Easy View Screen and Attachment 3 and **PERFORM** the following:

- a. **DOCUMENT** non-responders
- b. **PERFORM** backup notifications

4.3.4 IF State and Local Officials are being tested, **PERFORM** the following:

- a. WHEN approximately 30 minutes has elapsed since the drill announcement message was released, Refer To Easy View Screen and **IDENTIFY** non-responders required to call in.
- b. Refer To EPUG 08B, "Millstone Emergency Plan Resource Book," and **ATTEMPT** one call to each of the following required to call-in non-responders:
 - State of CT DEP
 - State and Local Town Officials
- c. **DOCUMENT** results on Attachment 1.

4.3.5 **IF SERO is being tested, PERFORM the following:**

- a. **WHEN 30–60 minutes has elapsed since the message was released, Refer To Easy View Screen and IDENTIFY non–responders required to call in.**
- b. **CHECK positions filled (responded) on Attachments 3 and 4.**
- c. **Refer To EPUG 08B, “Millstone Emergency Plan Resource Book,” and FILL the SERO position by calling or paging a person listed for each non–responding SERO position.**
- d. **RECORD the name of the person filling the position on Attachment 3.**
- e. **PRINT final CV Report.**

4.3.6 **RESTORE general default, as follows:**

- a. **SELECT “Rapid Reach.”**
- b. **SELECT “microphone” icon. (“Show Message Window”)**
- c. **At “Root” tree, SELECT “Informational Message.”**
- d. **At “Audio Message” screen, SELECT “microphone” icon.**
- e. **RECORD the following:**

“THERE IS NO INFORMATION PRESENTLY AVAILABLE FOR MILLSTONE STATION.”
- f. **VERIFY recorded information is satisfactory and SELECT “OK.”**
- g. **From “Root” tree, SELECT event message used (Emergency Call–Outs,” etc.).**
- h. **SELECT red minus button in fax box on lower right of screen.**
- i. **SELECT “Yes” to delete and OBSERVE “Same as alpha pager” in fax message box.**

j. CLOSE the following:

- 1) "RapidReach"
- 2) "EasyView"
- 3) "IRF" Word document

NOTE

1. For State and Local test, overall drill results are considered satisfactory when all State and Local Officials respond within 30–60 minutes of pager initiation or are able to be contacted within 60 minutes.
2. For SERO test, overall drill results are considered satisfactory when all "on–call" positions are filled within 60 minutes of pager initiation (are able to be filled by either their initial response into the system, by the call–out function of the system or by filling the position by calling or paging a person for each non–responding SERO position). Any subsequent calls required to fill the positions are considered "UNSAT" conditions requiring documentation by CR and indicating drill "UNSAT" on Attachment 1, Sheet 2.

4.3.7 INITIAL "SAT" or "UNSAT" on Attachment 1.

4.3.8 IF surveillance is "UNSAT," Refer To MP–16–CAP–SAP01, "Condition Report Initiation," and INITIATE a CR for follow-up investigation.

4.4 Backup and Remote Operation

- 4.4.1 IF "RapidReach Primary" does *not* connect, OPEN "RapidReach Backup."
- 4.4.2 IF "RapidReach Backup" connects, Refer To Attachment 5 and TRANSFER the phones.
- 4.4.3 IF "RapidReach Backup" connects AND phone lines transfer correctly, Go To step 4.2.3, and PERFORM operability test using "RapidReach Backup" and "EasyView Backup."

NOTE

1. If unable to connect to either the primary or backup via the LAN, "RapidReach" **MAY NOT** be used to fax or record the IRF into the "Informational Message."
2. Faxes must then be sent via SNET Faxworks.
3. If time permits, **IT IS STILL PREFERABLE** to use "EasyView Remote" because it allows State and Local Officials and SERO to call in and shows a graphical display of the positions being filled in Rapid Reach.

- 4.4.4 IF "RapidReach Backup" using the LAN does *not* connect, (leaving the phone lines in primary), SELECT the icon labeled "Primary to 475."
- 4.4.5 IF the connection is made, SELECT "EasyView Remote" from the "RapidReach Primary" folder and PERFORM the following:
- a. SELECT appropriate scenario.
 - b. SELECT "lightning bolt" icon.
 - c. MAXIMIZE "EasyView" screen and SELECT appropriate scenario.
 - d. SELECT "lightning bolt" icon.
 - e. SELECT "Set Common Message."
 - f. At "Root" tree, SELECT appropriate message:
 - Test Call-Outs
 - Call Into System Page

4.5 ENRS Failure

NOTE

ENRS failure consists of at least one of the following:

- No primary operability
- No secondary operability
- No remote operability

4.5.1 NOTIFY SAS (Ext. 4851) to transmit a text message to both State and Local Officials and SERO responders to include the following:

[Applicable unit] [NRC classification] [State posture code]
[Major EAL heading] [Minor EAL heading (code)] "Report to facility."

Example: [Monthly] [Call In Drill In Progress] [Standby For Call] ["Do Not Report To Facility"]

4.5.2 IF SAS is *not* able to assist, DIAL paging system (9-800-542-5154) using confidential Group Page codes for S&L Officials & SERO and ENTER numeric backup event code (i.e., 101, 201, 301, etc.).

NOTE

1. This Section is performed *only* when ENRS has failed or radiopager transmission was performed via "EasyView Remote."
2. A fax cover sheet is *not* required when distributing the IRF via SNET Faxworks.

4.5.3 DISTRIBUTE IRF via SNET Faxworks as follows:

- a. IF SNET Faxworks is *not* operable, Refer To EPUG 08B, Section, "Offsite Towns/Agencies," and manually FAX notification to State and Local Officials.
- b. PLACE completed IRF in telecopier feeder tray.
- c. LIFT handset **connected to the fax machine**, and ENTER SNET Faxworks telephone number (9-202-216-1821).

C OP 606
Rev. 004-02
20 of 29

7.3 Deleted U2TIC and U3TIC from Subject-to-Call in Attachment 4 and added to Attachment 3 as on-call position.

Revision 004-01

7.4 Deleted Unit 1 specific SERO on-call and subject-to-call positions formerly listed on Attachments 3 and 4.

7.5 Added acronyms to Attachment 4.

Revision 004

7.6 Updated procedure references in Section 2.2.

7.7 Added definitions of EPSD, "RapidReach Overview" screen, and "EasyView" screen to Section 2.4.

7.8 Rewrote procedure steps in Sections 4.2, 4.3, 4.4, and Attachment 5 for consistency with EPIP 4404, "Notifications and Communications."

7.9 Modified step 4.5.1 to include the applicable unit, NRC classification, State Posture Code, and Major EAL heading and code.

7.10 Added step 4.5.4 to verify required radiopager message and fax was received.

7.11 Added new Attachment 6, "Scenario Chart," as guidance for page and fax notifications.

7.12 Modified Attachment 1 to perform partial tests.

7.13 Added new SERO subject-to-call positions to Attachment 4.

7.14 Added steps 1.4.3, 1.4.4, and 1.4.5 to Section 1.4, steps 2.1.1 and 2.1.2 to Section 2.1, steps 4.1.1.a and 4.1.2 to Section 4.1, and new Sections 3 and 4.6 for consistency with C OP 608.

Attachment 5
Switching Telephone Lines

(Sheet 1 of 2)

NOTE

If the ENRS primary phone server is down, a communication failure has occurred. Telephone lines will need to be switched to the secondary phone server.

1. **IF** primary system is down, **PERFORM** the following:
 - 1.1 **LIFT** the dedicated ENRS handset.
 - 1.2 **PRESS** position “g” (blue button) labelled “Press for SERO Transfer.”
 - 1.3 **DIAL** “2724.”
 - 1.4 **WAIT** for confirmation tone (3 beeps).
2. **IF** confirmation tone is *not* heard, Go To step 1.

NOTE

The light will stay on to indicate the successful transfer of telephone lines.

3. **HANG** up handset and **OBSERVE** light on position “g” (blue button) illuminates, indicating transfer of SERO telephone lines.
4. **LIFT** the dedicated ENRS handset again.
5. **PRESS** position “i” (red button) labelled “Press for Transfer of State/Local to Back up.”
6. **OBSERVE** the following:
 - 6.1 Light on position “i” (red button) will illuminate for a few seconds and then turn off.
 - 6.2 Light on position “h” (yellow button) labelled “Light “ON” State/Local on Back up” will illuminate and stay on, indicating transfer of State/Local lines.

Attachment 5
Switching Telephone Lines

(Sheet 2 of 2)

7. HANG up handset.
8. CHECK "Both" "g" and "h" lights lit; "i" and "j" *not* lit.
9. IF either OR both lights fail to illuminate, Go To step 5.

NOTE

If the ENRS phone server is on the secondary system, green lights will be illuminated on the telephone.

10. RESTORE phone server from secondary to primary, as follows:
 - 10.1 PRESS position "g" (blue button) labelled "Press for SERO Transfer."
 - 10.2 OBSERVE light on position "g" (blue button) is *not* lit, indicating transfer of SERO lines.
11. RESTORE State/Local line to primary server, as follows:
 - 11.1 LIFT the dedicated ENRS handset.
 - 11.2 PRESS position "j" (green button) labelled "Press to Restore State/Local to Primary," and OBSERVE the following:
 - 11.2.1 Light on position "j" (green button) labelled "Press to Restore State/Local to Primary," is lit.

NOTE

Lights on position "h" and position "j" will go out after illumination.

- 11.2.2 Light on position "h" (yellow button) labelled "Light "ON" State/Local on Back up," is *not* lit.
 - 11.2.3 Light on position "j" (green button) labelled "Press to Restore State/Local to Primary," is *not* lit.
 - 11.2.4 CHECK all lights OFF ("g," "h," "i," "j")
