SUBJECT: MONTICELLO NUCLEAR GENERATING PLANT - CORRECTION TO
AMENDMENT NO. 119 (TAC NO. MB0833)

Dear Mr. Morris:

On April 5, 2001, the Commission issued Amendment No. 119 to Facility Operating License No. DPR-22 for the Monticello Nuclear Generating Plant. The amendment changed License Condition 2.C.4 to conform to NRC Generic Letter (GL) 86-10, "Implementation of Fire Protection Requirements." The amendment also relocated the Fire Protection Program (FPP) elements from the TSs to the licensee-controlled FPP, in accordance with GL 86-10 and GL 88-12, "Removal of Fire Protection Requirements from Technical Specifications."

The amendment consisted of changes to the License and Technical Specifications (TSs) in response to your application dated December 13, 2000, as supplemented April 3, 2001. As discussed by Mr. D. Neve of your staff with me during a telephone conversation on May 30, 2001, an error was inadvertently made on revised TS page 223 in your application which was carried over into Amendment No. 119. As noted in Exhibit A (proposed change No. 4) of your application, you proposed to revise Section 3.13.H to indicate it as 3.13.A. Accordingly, the reference in new TS 3.13.A.2 should have been changed from "3.13.H.1" to "3.13.A.1," but the revised TS page in Exhibit C inadvertently did not identify this appropriate corresponding change. A corrected copy of page 223 is enclosed.

If you have any questions concerning this matter, please call me at (301) 415-2296.

Sincerely,

/RA/
