SUBJECT: INDIAN POINT NUCLEAR GENERATING UNIT NOS. 1 AND 2 - TRANSFER
OF FACILITY OPERATING LICENSE (TAC NOS. MB0743 AND MB0744)

Dear Messrs. Groth and Kansler:

We are in receipt of Entergy's response to our May 4, 2001, request for additional information regarding the subject license transfer. In your response, which was dated May 24, 2001, and received as a facsimile on May 30, 2001, it appears that you may not have adequately addressed the Commission's decommissioning fund requirements. In addition, we have not yet received your response to the spent fuel pool issues that were discussed with Entergy's staff on May 18, 2001. Therefore, the current schedule for completing our review of your license transfer application will need to be reassessed after all the required information has been received and evaluated. Our specific concerns with the decommissioning fund requirements are being compiled and will be discussed during a conference call with your staffs on June 5, 2001.

Sincerely,

/RA/

John A. Zwolinski, Director
Division of Licensing Project Management
Office of Nuclear Reactor Regulation
