

June 5, 2001

Mr. James Barrington, Town Manager
Town of Hampton
100 Winnacunnet Road
Hampton, NH 03842

SUBJECT: NRC ANNUAL PERFORMANCE ASSESSMENT OF SEABROOK STATION

Dear Mr. Barrington:

The NRC completed its annual performance assessment of the Seabrook Station in accordance with the NRC Reactor Oversight Process. The assessment reflects current licensee performance, using the most recent performance indicators and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the North Atlantic Energy Service Corporation on June 1, 2001.

On June 14, 2001, the NRC will meet with the management of NAESCo to discuss the performance of Seabrook Station. This meeting is scheduled to begin at 1:00 p.m., at the Science and Nature Center at Seabrook Station in Seabrook, New Hampshire.

I would like to personally invite you and other members of your organization to attend the Annual Assessment Meeting. Following the meeting with NAESCo, the NRC staff will be available for individual followup discussion with your or others in attendance. Also, as we have discussed you will be hosting us at a briefing to your Selectmen and other interested parties at 7:00 p.m., at the Hampton Town Hall. This briefing will provide you and other interested parties an opportunity to learn more about our regulatory programs as applied to Seabrook and to discuss any current personal or constituent concerns with Seabrook Station. In addition, you may obtain information about the Reactor Oversight Process and the specific performance of Seabrook Station using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>.

Your schedule permitting, I look forward to meeting you on June 14, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

/RA/
Curtis J. Cowgill, Chief
Projects Branch 6
Division of Reactor Projects

The NRC completed its annual assessment of the safety performance of the Seabrook Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the NAESCO on June 1, 2001.

On June 14, 2001, the NRC will meet with the management of NAESCO to discuss the safety performance of Seabrook Station. This meeting is scheduled to begin at 1:00 p.m., at the Science and Nature Center at Seabrook Station in Seabrook, New Hampshire, and is open to the public for observation.

Following the meeting with NAESCO, the NRC staff will be available for individual followup discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance of Seabrook Station using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>.

Your schedule permitting, I look forward to meeting you on June 14, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

SUBJECT: NRC ANNUAL PERFORMANCE ASSESSMENT OF SEABROOK STATION

Dear Mr. Costello:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and North Atlantic Energy Service Corporation (NAESCO) in which we will discuss our annual performance assessment of Seabrook Station.

The NRC completed its annual assessment of the safety performance of the Seabrook Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the NAESCO on June 1, 2001.

On June 14, 2001, the NRC will meet with the management of NAESCO to discuss the safety performance of Seabrook Station. This meeting is scheduled to begin at 1:00 p.m., at the Science and Nature Center at Seabrook Station in Seabrook, New Hampshire, and is open to the public for observation.

Following the meeting with NAESCO, the NRC staff will be available for individual followup discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance of Seabrook Station using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>.

Your schedule permitting, I look forward to meeting you on June 14, 2001. In the interim, please do not hesitate to contact me at 610-337-5233, if I can be of further assistance to you.

Sincerely,

/RA/

Curtis J. Cowgill, Chief
