Al,

I've arranged to reinterview Daryl Smith and Vonda Sisson on Wednesday 4/26 at the TVA Central Lab Services Bldg. I'm going to reinterview Sisson because she supposedly recollects some conversations she had with Overall regarding the revised metallurgical report of 6/2.

Smith's interview is at 8:30 A.M. with Sisson to follow.

Can you provide some technical support for the interview? I know we talked about Bearden, but then I thought there was some conversation about Vandoorn.

Gary
