SUBJECT: CORRECTION TO ANNUAL ASSESSMENT LETTER

Dear Mr. Gambir:

On May 29, 2001, the NRC staff issued the annual assessment letter for your Fort Calhoun Station. Unfortunately, this letter incorrectly characterized the plant's performance during the last assessment cycle. The letter stated that the performance indicator for occupational radiation safety had changed to White in the first quarter of the assessment cycle. In fact, this performance indicator had been White in the first calendar quarter of 2000 and was restored to Green prior to the beginning of the assessment cycle. Therefore, all performance inputs throughout the assessment cycle were within the licensee control band (Green). I regret any inconvenience this may have caused.

Sincerely,

/RA/

Charles S. Marschall, Chief
Project Branch C
Division of Reactor Projects
