 Westborough, Massachusetts 01581

Dear Mr. Smith:

In response to the Commission's Show Cause Order issued on January 2, 1980, your submittal dated January 16, 1980 provided documentation on the status of Lessons Learned implementation for your plant. Subsequent to this submittal, we have been advised that Vermont Yankee has expedited delivery of all necessary equipment and plan to shut down today to complete implementation of all Category A items.

As indicated in your letter dated October 30, 1979, the acceptability of your implementation of each Category A item (excluding 2.1.7a) will be the subject of post implementation review. Should your information concerning the availability of the equipment change, notify this office within five days of receipt of the new information

Sincerely,

Original signed by

Harold R. Denton, Director  
 Office of Nuclear Reactor Regulation
