

June 7, 2001

The Honorable Daniel Donatella  
Chairman, Beaver County Commission  
Court House  
Beaver, PA 15009

SUBJECT: BEAVER VALLEY POWER STATION UNITS 1 AND 2 - ANNUAL  
ASSESSMENT OF SAFETY PERFORMANCE

Dear Mr. Donatella:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and FirstEnergy Nuclear Operating Company in which we will discuss our annual performance assessment of the Beaver Valley Power Station Units 1 and 2.

The NRC completed its annual assessment of the safety performance of the Beaver Valley Power Station Units 1 and 2 in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the FirstEnergy Nuclear Operating Company on May 30, 2001.

On July 11, 2001, the NRC will meet with the management of FirstEnergy Nuclear Operating Company to discuss the safety performance of the Beaver Valley Power Station Units 1 and 2. This meeting is scheduled to begin at 2:00 p.m. in the Beaver Valley site Emergency Response Facility, conference room A, and is open to the public for observation.

Following the meeting with FirstEnergy, the NRC staff will be available for additional follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Beaver Valley Power Station Units 1 and 2 using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

*/RA/*

Dear Mayor Yanosich:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and FirstEnergy Nuclear Operating Company in which we will discuss our annual performance assessment of the Beaver Valley Power Station Units 1 and 2.

The NRC completed its annual assessment of the safety performance of the Beaver Valley Power Station Units 1 and 2 in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the FirstEnergy Nuclear Operating Company on May 30, 2001.

On July 11, 2001, the NRC will meet with the management of FirstEnergy Nuclear Operating Company to discuss the safety performance of the Beaver Valley Power Station Units 1 and 2. This meeting is scheduled to begin at 2:00 p.m. in the Beaver Valley site Emergency Response Facility, conference room A, and is open to the public for observation.

Following the meeting with FirstEnergy, the NRC staff will be available for additional follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Beaver Valley Power Station Units 1 and 2 using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and FirstEnergy Nuclear Operating Company in which we will discuss our annual performance assessment of the Beaver Valley Power Station Units 1 and 2.

The NRC completed its annual assessment of the safety performance of the Beaver Valley Power Station Units 1 and 2 in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the FirstEnergy Nuclear Operating Company on May 30, 2001.

On July 11, 2001, the NRC will meet with the management of FirstEnergy Nuclear Operating Company to discuss the safety performance of the Beaver Valley Power Station Units 1 and 2. This meeting is scheduled to begin at 2:00 p.m. in the Beaver Valley site Emergency Response Facility, conference room A, and is open to the public for observation.

Following the meeting with FirstEnergy, the NRC staff will be available for additional follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Beaver Valley Power Station Units 1 and 2 using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT>

Your schedule permitting, I look forward to meeting you on July 11, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,
