Ms. V. Laureigh Lacey Township 818 West Lacey Road Forked River, NJ 08731

SUBJECT: OYSTER CREEK GENERATING STATION - ANNUAL ASSESSMENT OF

SAFETY PERFORMANCE

Dear Ms. Laureigh:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which we will discuss our annual performance assessment of the Oyster Creek Generating Station.

The NRC completed its annual assessment of the safety performance of the Oyster Creek Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the AmerGen Energy Company on May 31, 2001.

On June 20, 2001, the NRC will meet with the management of AmerGen to discuss the safety performance of the Oyster Creek Generating Station. This meeting is scheduled to begin at 2:00 p.m. in the Oyster Creek site Administration Building Cafeteria, in Forked River, New Jersey, and is open to the public for observation.

Following the meeting with AmerGen, the NRC staff will be available for individual follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Oyster Creek Generating Station using the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT

Your schedule permitting, I look forward to meeting you on June 20, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

/RA/

John F. Rogge, Chief Projects Branch 7 Division of Reactor Projects

Ms. Betty Miller Women's Club of Lacey 310 Paradise Point Forked River, NJ 08731

SUBJECT: OYSTER CREEK GENERATING STATION - ANNUAL ASSESSMENT OF

SAFETY PERFORMANCE

Dear Ms. Miller:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which we will discuss our annual performance assessment of the Oyster Creek Generating Station.

The NRC completed its annual assessment of the safety performance of the Oyster Creek Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the AmerGen Energy Company on May 31, 2001.

Your schedule permitting, I look forward to meeting you on June 20, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

/RA/

John F. Rogge, Chief Projects Branch 7 Division of Reactor Projects

Mr. Alan W. Avery, Jr.
Ocean County Planning Board
C.N. 2191
Toms River, NJ 08754-2191

SUBJECT: OYSTER CREEK GENERATING STATION - ANNUAL ASSESSMENT OF

SAFETY PERFORMANCE

Dear Mr. Avery:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which we will discuss our annual performance assessment of the Oyster Creek Generating Station.

The NRC completed its annual assessment of the safety performance of the Oyster Creek Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the AmerGen Energy Company on May 31, 2001.

On June 20, 2001, the NRC will meet with the management of AmerGen to discuss the safety performance of the Oyster Creek Generating Station. This meeting is scheduled to begin at 2:00 p.m. in the Oyster Creek site Administration Building Cafeteria, in Forked River, New Jersey, and is open to the public for observation.

Following the meeting with AmerGen, the NRC staff will be available for individual follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Oyster Creek Generating Station using the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT

Your schedule permitting, I look forward to meeting you on June 20, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

/RA/

John F. Rogge, Chief Projects Branch 7 Division of Reactor Projects

Ms. J. Richards Rep. H. James Saxton 7 Hadley Avenue Toms River, NJ 08753

In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Oyster Creek Generating Station using the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT

Your schedule permitting, I look forward to meeting you on June 20, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

/RA/

John F. Rogge, Chief Projects Branch 7 Division of Reactor Projects

Mayor of Surf City Borough of Surf City 9th and Boulevard Surf City, NJ 08008

SUBJECT: OYSTER CREEK GENERATING STATION - ANNUAL ASSESSMENT OF

SAFETY PERFORMANCE

Dear Mayor:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which we will discuss our annual performance assessment of the Oyster Creek Generating Station.

The NRC completed its annual assessment of the safety performance of the Oyster Creek Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the AmerGen Energy Company on May 31, 2001.

On June 20, 2001, the NRC will meet with the management of AmerGen to discuss the safety performance of the Oyster Creek Generating Station. This meeting is scheduled to begin at 2:00 p.m. in the Oyster Creek site Administration Building Cafeteria, in Forked River, New Jersey, and is open to the public for observation.

Following the meeting with AmerGen, the NRC staff will be available for individual follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Oyster Creek Generating Station using the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT

Your schedule permitting, I look forward to meeting you on June 20, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

/RA/

John F. Rogge, Chief Projects Branch 7 Division of Reactor Projects

Mr. Wayne Ruppert Ocean County Sheriff's Dept. Emergency Management Division P.O. Box 2191 Toms River, NJ 08754

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and AmerGen Energy Company in which we will discuss our annual performance assessment of the Oyster Creek Generating Station.

The NRC completed its annual assessment of the safety performance of the Oyster Creek Generating Station in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from the last 12 months. The assessment results are described in the enclosed revised Annual Assessment Letter sent to the AmerGen Energy Company on May 31, 2001.

On June 20, 2001, the NRC will meet with the management of AmerGen to discuss the safety performance of the Oyster Creek Generating Station. This meeting is scheduled to begin at 2:00 p.m. in the Oyster Creek site Administration Building Cafeteria, in Forked River, New Jersey, and is open to the public for observation.

Following the meeting with AmerGen, the NRC staff will be available for individual follow-up discussion with you or others in attendance. In addition, you may obtain information about the Reactor Oversight Process and the specific performance at the Oyster Creek Generating Station using the NRC Web site. This information may be accessed at http://www.nrc.gov/NRR/OVERSIGHT

Your schedule permitting, I look forward to meeting you on June 20, 2001. In the interim, please do not hesitate to contact me at 610-337-5146, if I can be of further assistance to you.

Sincerely,

/RA/

John F. Rogge, Chief Projects Branch 7 Division of Reactor Projects
